Intro, V1, C, V2, C, B, C

## Intro

### Verse 1

Living in my skin, couldn't win  
heart beat stop, start again  
I gasp for air but there is none  
Heart pounding like a shotgun  
God please save me all that I see  
Chords of death surrounding  
My life flashing from within  
Lift my voice to heaven

### CHORUS

I love You Lord  
Because You heard me  
When my heart cried  
You answered me  
So I will serve  
You and You only  
As long as I live  
Halleluyah

### Verse 2

A boy whose built with big strong bones  
Yet his heart a reflection of my own  
Eyes burning no sleep to come, waiting  
fading In this hospital praying  
My boy, Oh God it's the end!  
You took one son please not again  
Distress and sorrow surrounding  
I lift my voice to heaven

### Bridge

Rest, O my soul  
My heart beats yet within me,  
You have rescued me from death  
My tears have ceased from falling  
Son alive and breathing  
One foot in front of the other  
As you provide I will not stumble  
I offer up thanksgiving  
Praise the Lord
