

Your Eyes [Lyrics]

[Default Arrangement]

Intro

Verse 1

Clouds are all I see
Can you really get through to me
You say that I'm forgiven
Your love is all I'm given
I'm free

Verse 2

Open my front door
Don't like what I was before
I take my first steps
Shadows they linger still with me

Chorus

(girl)
Your eyes Your eyes see the
Your eyes see the beauty and
Your perfect love takes the shadows
And renews me
And I know my only chance is to
Just let go of me
(guy)
I know, I know You see me
You see me clearly
This time, this time how did
How did You find a way?
Just let go of me

Verse 2

Look at these broken hands
Worked hard so I won't give in
This state we live in
Don't give and don't give in
They say we're free, are we free?
I need you, only you

Chorus

Pre Bridge

You have forgiven me

Bridge

Open your eyes, see the beauty
Lift your burdens to the sky
(and now I see the change
I'll never be the same
I see the way You love
and it consumes me)
Open your eyes, see the beauty
Lift your burdens to the sky
